

INNOVATIONS IN GOVERNMENT 2009

FEATURED DIALOGUE:

Economic Slowdown, the Incoming Administration and Performance Management

Times are changing.

Are you prepared to keep up?

For federal, state and local governments this is a time of far-reaching, systemic change. The sluggish world economy is taking its toll, and budgets are beginning to reflect the economic situation at hand. At the same time, an incoming Presidential Administration promises to do things differently, stressing transparency, efficiency and accountability.

During this interactive dialogue, join your peers in a dynamic exchange of best practices and hear from the most respected minds in government as they discuss how to address key concerns regarding performance management during these times of change.

During this roundtable dialogue we will address the following issues:

- Understand the role performance management can play in the drive to do more with less
- Gain insights on the new Obama management agenda
- Understand how to measure, communicate and evaluate the performance of your program

This is your chance to share ideas with your colleagues, hear from leading experts, access best practices from your peers, and raise key issues about the future of Performance Management in government.

HOW TO REGISTER

1. **RSVP** by March 17, 2009 by emailing McGuire@PerformanceWeb.org
2. **Register Online** at www.PerformanceWeb.org/IBM
